*Females Only* – Date last of Menstrual Period: \_\_\_\_\_

Are you possibly Pregnant?: YES/NO

### About Your Care

There are three phases of care that Chiropractic patients often go through. The first is **Initial Intensive Care** which corrects the most recent layer of Spinal and Neurological damage (**Neurological Defense Pattern**). This care often reduces or eliminates the symptoms; then begins **Reconstructive Care** which corrects the years of damage that occurred when there were few symptoms. And finally, Chiropractic offers a genuine approach to **Wellness Care**. All of these options will be explained at your report of findings. Then you'll be able to begin a course of care that fits your goals.

I have read the above information and certify it to be true and correct to the best of my knowledge, and hereby authorize this office of Chiropractic to do whatever is necessary in accordance with this state's statues, to provide me, or my child, with chiropractic care.

Signature \_\_\_\_\_ Date \_\_\_\_\_  
(Patient, Parent or Guardian)

**If you would like to have your spouse and/or children checked for structural dysfunction, check the box below and they/he/she can receive a complimentary examination within 2 wks of your starting care. This exam is at no cost to you and does not obligate them to receive future care.**

- Yes, I would like my family member(s) checked in the next two weeks

### Notice of Privacy Practices:

You should review the Notice of Privacy Practices for a more complete description of your rights as they concern to the use of health information, both collected from you and created or received by this office.

*I acknowledge I have received a copy of the Notice of Privacy Practices.*

Signature \_\_\_\_\_ Date \_\_\_\_\_  
(Patient, Parent or Guardian)

## **Informed Consent for Chiropractic Care**

Chiropractic care, like all forms of health care, while offering considerable benefit may also provide some level of risk. This level of risk is most often very minimal, yet in rare cases, injury has been associated with chiropractic care. The types of complications that have been reported secondary to chiropractic care include sprain / strain injuries, irritation of a disc condition, and, rarely, fractures. One of the rarest complications associated with chiropractic care, occurring at a rate one instance per one million and one per two million cervical spine neck adjustments may be a vertebral artery injury that could lead to stroke.

Prior to receiving chiropractic care in this office, a health history and physical examination will be completed. These procedures are performed to assess your specific condition, your overall health and, in particular, your spine health. These procedures will assist us in determining if chiropractic care is needed, or if further examinations or studies are needed. In addition, they will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you along with a care plan prior to beginning care.

---

I understand and accept that there are risks associated with chiropractic care and give my consent to the examinations that the doctor deems necessary, and to the chiropractic care including spinal adjustments, as reported following my assessment.
